# **24-core fiber optic cable junction box one inlet and two outlets**

## Overview

---

FTTH IP68 Dome Type 1 Inlets 2 Outlets 12 24 Cores Cable Splice Closure is used for the protective connection and fiber distribution between two or more optical cables, it is one of the common equipment of user access points, mainly completing the outdoor connection. This mini type fiber optic splice closure has good sealing performance with heat. The compact FTTx distributor I-CASE FTTH-OUT24 is perfect for connecting buildings with fiber optics and for additional secondary distribution. This housing can be used both as a distribution box in buildings and as a house termination point.
