NKK Switches REACH SVHCs Compliance

As of June 2025, below listed NKK Switches' products are all in compliance with the requirements of the current REACH Regulation, EC 1907/2006, including any exemptions currently in effect.

VX6940

Rugged air cooled is made for harsh environments and meet VITA 47 class EAC6 V2 and can operate in extended temperature environments up to of -40 °C/+75 °C. Built-In test capabilities enable effective

Policy Statement on RoHS Compliance and Lead-Free Products

RoHS and lead-free compliance are identified on the product specification sheet. Also identified is the lead-free solder alloy or plating on the terminals (pins) that interconnects with the printed circuit board.

VX6940

Description: VX6940 is a 6U VPX non-blocking L2/L3 switch built around a Broadcom 72 x 10GbE port high-density switch with 100G uplinks capability offering 720 Gb of I/O bandwidth. Compliant with

VX3940

The Air-cooled version of the VX3940 features a front QSFP28 cage for the support of up to four 25GbE or two 50GbE links. 40Gbe or four 10Gbe links is also supported.

FortiSwitch Rugged Data Sheet

Our rugged switches have added hardware reinforcement and software features that make them ideal for deployments in hostile environments, as well as operational technology (OT) industrial and
