

**Adam Tas Corridor Energy**

# **AP placed on top of the cable tray**

## Overview

---

If needs to put AP inside the ceiling, make sure the front of APs is facing to the service area (usually down). Hello folks, Based on your experience is it acceptable to mount APs underneath the cable tray?

. How about the noise/interference (if yes)?

I think this topic not just for Cisco AP 3702i but for all other APs. Explore Premium Access Point Mounts & Brackets for Wireless Networks Discover our range of high-quality access point mounting solutions, crafted to enhance both functionality and aesthetic appeal in indoor environments.
