Are the color steel cable trays galvanized

Overview

Pre-galvanized cable trays are manufactured from pre-coated steel sheets that have already undergone the galvanization process. These trays offer moderate protection against corrosion, making them suitable for indoor installations with minimal exposure to harsh conditions. The wrong one is the most common error, which results in rust showing itself much earlier than. Steel Cable Tray systems are Certified CSA Cable Tray, UL listed, and NEMA certified and are available in the following material types 316 Stainless Steel Cable Tray, 304 Stainless Steel Cable Tray, HDGAF Cable Tray, Hot Dipped Galvanized After Fabrication Cable Tray, Pre Galvanized Cable Tray, Pre.
