Overview

A fully automatic optical fiber cable bundling machine ensures precise, consistent bundling in harsh environments, reducing signal loss, microbending, and rework while maintaining reliability across high-altitude and extreme conditions. For cutting of cable (electric cable or optical fiber cable), unfold the cable from the cable spool, section-cut cable per preset length and quantity, wrap into coil loop and bundle automatically, unload and transfer coil-state cable to the storage rack. To produce high-quality fiber optic cables efficiently and gently, KURRE Systems relies on pre-bundling the fibers using a state-of-the-art fibre bundle machine. The German company KURRE Systems - a merger of KURRE Spezialmaschinenbau and SIEBE Engineering - has now taken a significant step forward. These cable management products offer a choice of methods to secure, route, label, and bundle electrical cables and fiber optic patch cables. KINGSING© Supply Automatic Cable Cutting and Winding Machine, Cable Winding and Bundling Machine, Nylon Cable Tie Tying Machine, Wire Bundling Machine, Twist Tie Machine. Strict Quality Control, CE Approved, Durable & Affordable, Factory Direct Price. Remote control switch: size 62mm*30mm*12mm, remote control distance is 20 meters in an open space, can be used on partition walls Shandong Yuanchuan Machinery Co.
