

**Adam Tas Corridor Energy**

# **Bahrain Energy Fiber Optic KVM Project**

## Overview

---

The project includes laying of 220 kV cables to operate Al Ramli and East Hidd Substations, in addition to laying the cable from Al-Dur substation to Durrat Al Bahrain substation. In a significant move to bolster regional energy infrastructure, the Kingdom of Bahrain and the Kuwait Fund for Arab Economic Development (KFAED) have signed a new loan agreement worth KD 31. Kamal bin Ahmed Mohammed, President of the Electricity and Water Authority (EWA), visited Al Jasra Electricity Transmission Station to review the progress of this strategic initiative — the largest electricity transmission station currently under construction in Bahrain. Manama, Bahrain -Bahrain Network (BNET), the kingdom's leading telecommunications infrastructure provider, announced today the launch of its project to transfer all Copper Internet Networks to Ultra-High-Speed Fiber Networks, in alignment with the Sixth National Telecommunications Plan (NTP6) and.

## Bahrain Energy Fiber Optic KVM Project

### Bahrain and Kuwait sign deal to develop power project

The Government of Bahrain and the Kuwait Fund for Arab Economic Development yesterday signed a loan agreement to finance the 220 and 66 kV

### Submarine & Underground Cable Works Project

This project involves installation of 66kV submarine and underground cable works for electricity supply to Hawar Island in Bahrain. Scope of work involves: Submarine

### EWA President Visits Al Jasra 400kV Transmission

The new station is set to be operational by 2026, representing a significant milestone in Bahrain's

electricity transmission network. It aligns with EWA's commitment to

## Electricity transmission works in Bahrein

Electricity transmission works in Bahrein On April 12th, 2020, Omexom Bahrein has been awarded by LS Cable & System Ltd a part of the 400

## Bahrain's EWA receives competitive bids for major grid station project

The project also encompasses the design, manufacturing, supply, transportation, civil works, installation, jointing, and testing of the Fibre Optic Cable, PDMS, and DTS system.

## Siemens Energy Emerges as Sole Bidder for Bahrain's

In a significant development in Bahrain's infrastructure, Siemens Energy has emerged as the sole bidder for Bahrain's Electricity and Water

### **Bahrain Network (BNET) Commences Migration of Old**

The project includes migrating 100% of existing copper customers to fiber optic services, which will increase fiber penetration by approximately 15% and provide

### **Bahrain launches first major utility- scale solar project**

Advisory support will be provided by a consortium of firms: KPMG as financial advisor, WSP as technical advisor, and Trowers & Hamblins as legal

### **On the grid: Fibre optics and an expanded transmission system are in**

With projects ranging from the construction of transmission substations to the installation of fibre-optic cabling, the suite of planned and ongoing projects should notably increase the overall security of

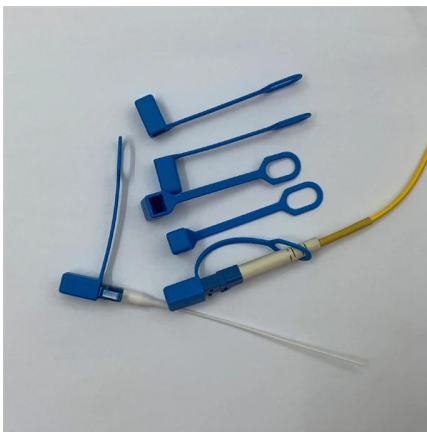

## **BNET Launches Interactive Fiber Coverage Map for**

Manama, Bahrain: Bahrain Network (BNET), the national telecommunications infrastructure company, announces the launch of its new Interactive Map

## **Kuwait Fund Extends \$102 Million Loan to Strengthen**

This marks the fourth loan provided by the Kuwait Fund to strengthen Bahrain's high-voltage power infrastructure, highlighting a enduring partnership in

## **Bahrain Port Inks Deal With Mumbai Solar Firm For Power Project**

APM Terminals Bahrain managed Khalifa Bin Salman Port has announced the initiation of a revolutionary solar power project, with Mumbai-based solar power firm Bhageria Industries.

## **Prysmian strengthens power grid with strategic**

Recently, Prysmian successfully handed over the Base Project to the client, the Electricity and Water Authority of the Government of the Kingdom of Bahrain

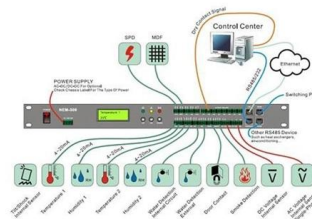

### Landmark upgrade for Kingdom of Bahrain's power grid with

Siemens will introduce an upgraded 400 kilovolt (kV) network, which will form a reliable and stable backbone for the country's electricity transmission grid, and cater for increasing electricity
