CE Certified Integrated Container Rack 19 inches

Overview

Using our CE-1000 cabinet and plinth range, we can offer full or partial height 19" rack frames with 90° or 180° opening. Our 19" rack components allow a full range of options, which are suitable for heavy load fixing, fixed (>70 kg), removable and sliding shelves (>40 kg). What are 19 integrated racks?

Integrated 19 in racks are complete rack systems that house electronics, power, cooling, and mechanical interfaces in a standardized 19-inch format — providing a pre-engineered platform for mounting and protecting equipment in control rooms, data centers, or rugged. That's why our industrial IT system integration service is based on one principle: no compromise on structure. Discover robust 19-inch cabinets, racks, and subrack systems from nVent SCHROFF, engineered to protect critical electronics in aerospace, defense, industrial, and telecom applications. These 19" frame enclosures are used to place computer servers, audio installations or networking equipment.
