Cable tray sealing sleeve

Overview

Fabricated cable tray sleeves, with or without firestop products, are an economical alternative to the high cost of fabricating penetration sleeves in the field. Seal cable penetrations with our modular firestop solutions, designed to create water-, smoke- and gas-tight barriers in energy and industry projects both onshore and offshore. AF BAGS are intumescent and ablative fireproof pillows certified under EN 1366-3 for sealing up to EI 240 of cable tray penetrations. Inside a non-combustible fibreglass casing, a high-density concentrate of intumescent components, inert thermal insulators and products with gradual release of.

Cable tray sealing sleeve

CSD Sealing Systems: Weatherstops

The frame can be opened and closed repeatedly to allow for cable maintenance and additions. The sponge rubber pads are compressed around the penetrating items
