Cable tray suspended cable

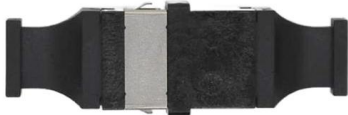

Overview

A suspended cable tray system is a flexible electrical tray management system that provides just as much strength and reliability that a traditional cable basket tray would. When developing our cable support OBO can offer reliable solutions for systems, three attributes are at the routing and fastening cables securely core of what we do: efficiency, resilience and safety. Whether you're running cable tray, basket or conduit, Griplock suspension systems make installation quicker, discreet and easier to adjust, without the extra hassle of cutting rod or handling long lengths of strut on-site. Calculation modules on-line for simulation of the load, cable filling or other parameters of cable route size to facilitate selection of the most appropriate products. Available with side heights of 40 mm and 60 mm, and can also be supplied in white or black paint. Griplock's inverted "Y" cables and tool-free adjustable Grippers are perfect for suspending most Cable Tray Systems.

Cable tray suspended cable

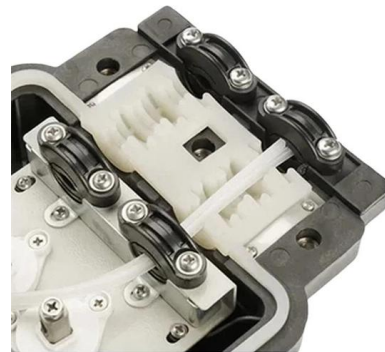

Cable Containment Systems , Trays, Baskets
