# **Can cable trays be deducted from taxable income**

## Overview

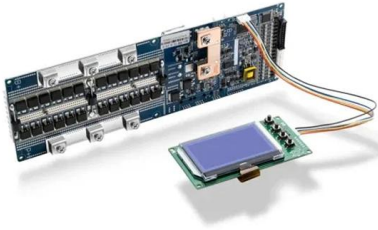

---

The Internal Revenue Service, or IRS, does not consider cable or telephone services as utilities for the taxpayer looking to claim these items as a deduction. The Tax Return Guide lists 10 examples of 'other taxable income' which you should include in the relevant boxes and provides guidance on expenses which can be allowed in arriving at the amount of other taxable income. This includes miscellaneous income, for example from casual earnings, commission. By considering the specific criteria and regulatory frameworks that govern this area. Necessary business expenses (which are very narrowly defined) can be deducted from employment income and are not taxable if paid for or reimbursed by the employer.
