Corner of the cable tray bait tray support

Overview

It is the quickest way to attach tray to support, utilizing a washer support and self threading screw. Corner Splice and Radius Corner Splice are used when tray sections are joined to make a 90 degree horizontal transition. According to DIN EN 61537, a cable support system is used to support and house cables. The system allows the use of electrical resources in electrical installations and/ or in communication systems.
