Cost of Network Security Equipment

Overview

Network pricing usually follows either a CapEx (buy the gear yourself) or OpEx (monthly service fee) model. CapEx means you buy everything up front, routers, switches, cabling, and firewalls. Why do you Need a Network Firewall?

Today, every business that connects to the Internet needs a network firewall, not only to protect the network from attacks. Designing and managing a network can be complicated — from determining your business requirements to navigating numerous hardware options, and dealing with installation and activation. Evaluate your current security posture and identify compliance gaps (SOC 2, HIPAA, ISO 27001).

Cost of Network Security Equipment

Cost Analysis: Investing in Firewalls vs IDS for Cost-Effective Network
