Dd distribution box

Overview

A double door distribution board, also known as a double door consumer unit or distribution box, is an electrical enclosure used to house the electrical wiring and protective devices for a building's electrical system. With sturdy construction and reliable performance, Havells Distribution Board ensures safe and organized distribution of electricity to various circuits and. But what exactly is a power distribution box, and why is it so essential in our daily lives?

The DB panel board controls the flow of electricity. Schneider Electric aims to achieve Net Zero status by 2050 through supply chain partnerships, lower impact materials, and circularity via our ongoing "Use Better, Use Longer, Use Again" campaign to extend product lifetimes and recyclability. DB is an enclosure shelter box for MCB switches to protect them from moisture, rain & sun light.
