Digital Fiber Optic Sensing Amplifier x

Overview

High-performance digital fiber amplifier with smart tuning and power saving functions to keep the amplifier running more accurately and efficiently. 6 times longer sensing range than conventional models! FX-100 - top price-performance. Our global manufacturing network for fiber optic sensors in Ayabe (Japan), Shanghai (China) and Nufringen (Germany) focuses on continuously optimising methods for small and large volume production, applying stringent quality control procedures, and expanding production portfolio and flexibility to. Emitter intensity is also stable due to few curvatures and gaps in the beam axis. Plastic or Glass Fiber Optics?

How to Choose The Sensor Selection Guide briefly explains Banner's array of sensing technologies, and helpful flowcharts make it easy to.
