Explosion-proof distribution box CT4

Overview

All products are certified Exd BT6 CT4, supporting both IIC and IIB explosion-proof categories for different hazardous area classifications. ☐☐ Standout features:

- Durable corrosion-resistant stainless steel construction that handles chemicals, moisture, and heavy use
- Certified. An explosion-proof junction box helps protect equipment in explosive atmospheres and demanding industrial settings.

Explosion-proof circuit breaker (MCB) box Manufacturers ●

It is energy-saving and environmental protection which the power consumption is only 19% of the same brightness of incandescent lamp.

Volumetric weight refers to the overall size of a parcel and is measured in volumetric kilograms. CT4 and CT6 indicate operational surface temperatures, not the withstand temperatures, for explosion-proof products.
