

Adam Tas Corridor Energy

Fiber Optic Cable Tray IP68 Agent

Overview

Organize and protect your fiber optic connections with our outdoor closure splice tray. This fiber splicing horizontal enclosure comes with six splice trays that accommodate up to 24 unterminated cables each to give you more flexibility in adjusting cable lengths and connection types directly on-site. Optical splice closures are used to distribute, splice, and store outdoor optical cables. Fibre Splice Tray & Protection Sleeves ensure 100% protection & cable management for fusion and mechanical splicing, holding up to 6, 12, 24 single/ribbon Fibres. Abtech offers a comprehensive range of fibre optic communication solutions, designed to excel in environments ranging from standard safe areas to the most challenging conditions.

Fiber Optic Cable Tray IP68 Agent

48F Vertical Fibre Optic Cable Joint Box/ Dome Type Optical Fibre

There are 4 fiber optic cable access holes for the splice tray, which meet the requirements of all angles to enter the fiber. The splice tray is injection molded with high-strength engineering plastics.
