Grenada Fireproof Cable Tray Elbow

Overview

The Industrial-Grade Fireproof Cable Tray Elbow for Long-Term Reliability is engineered for industrial and high-rise applications, providing secure cable routing at bends and directional changes. Effective protection of cable systems around the world: our tried-and-tested FLAMMOTECT-A and DG-CR 0.7 products are successfully used to protect cables in high-rise buildings, industrial buildings, and offshore facilities as well as in sensitive areas, such as hospitals, airports, production. Do you need help with your purchase?

The HERMI team will be happy to advise you and help you find the most suitable solution for your situation. Made from high-strength steel with advanced fireproof coatings, it ensures structural stability. Meka Pro's manufacturer assurance is based on tests that are carried out, not just on simulation. Our cable trays are produced in fit for purpose materials like stainless steel, galvanized, aluminium and fibreglass (FRP/GRP) composites to suit any project type both offshore and onshore.
