# **How much does a 48-core fiber optic cable from Finland cost**

## Overview

---

50 per meter for standard single-mode outdoor cables, depending on specifications and volume orders. Indoor cables with tighter bend radii and fire-retardant jackets may cost slightly more. Commercial building installations with 100-200 network drops generally range from \$15,000 to \$30,000. Single-mode fiber costs less per foot than multimode fiber, but it requires more. The optical fiber elements are typically individually coated with layers and contained in a protective tube suitable for the environment where the cable will be deployed. Here's a general pricing reference: These are indicative prices based on standard configurations.
