# **How much is the budget for underground fiber optic cable installation**

## Overview

---

50 to \$42 per foot, with installation costs accounting for 60-80% of total project expenses. Home and business fiber optics projects typically range from a few hundred to several thousand dollars, depending on run length, fiber type, and labor needs. Aerial fiber deployment saves money initially but may need more maintenance over time. The 2025 Fiber Deployment Cost Annual Report, produced by the Fiber Broadband Association and Cartesian, provides the industry's most comprehensive benchmark of fiber build costs across the U. Drawing on data from operators and contractors in 38 states, the report shows that fiber deployment.
