How to strip the steel wire in the middle of an optical cable

Overview

Position the Cable: Insert the cable into the middle of the stripper's blade and adjust it to the desired length of the wire to be stripped. Normally I'd love to use daisy chained wire harnesses (google it) to connect some elements to a same wire, but this will not. Whether you're working on a home electrical project or removing the metal to sell scrap, wire stripping is really simple, and there are quite a few different tools you can use to do it. Need to strip wire for your next DIY project?

In this video, Family Handyman walks you through the proper way to strip electrical wire safely and efficiently.
