Overview

The Huawei O0SPL2400 is a high-quality bare optical splitter designed for efficient signal distribution. It features a 2:4 even split ratio without connectors, making it a versatile component for various fiber optic applications. As 200 Mbps or higher bandwidth becomes the mainstream and requirements for services such as online education, video, VR, e-Sports, and smart office increase sharply, users need Wi-Fi that supports high bandwidth, low latency, wide coverage, and multi-user concurrent access, driving operators to. 64 Ports VDSL2 Over POTS Subscriber Board, with 600 ohm Real Impedance Splitter, with Vectoring. What is Huawei FTTR for Home solution?

With the development of the broadband strategy, the FTTH penetration rate has exceeded 90%. To obtain better Internet access experience, users continuously upgrade broadband packages.
