# **Huawei optical splitter without light attenuation**

## Overview

---

The Huawei OSPL43201 is a highly efficient optical splitter designed for even splitting of optical signals at a 1:4 ratio. Featuring an SC/APC termination with a compact size of 60x7x4mm, this product is an excellent choice for high-performance fiber optic network deployment. □ The input pigtail can be easily distinguished from the output pigtail due to the color difference.
