Installing a 19-inch hot aisle

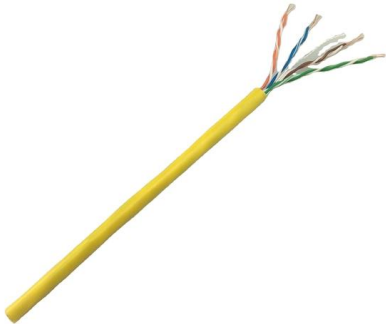

Overview

This manual is a guide for basic installation procedures for creating a Hot Aisle Containment System. As you already know, there are two kinds of temperature-controlled aisle containment systems: Cold Aisle Containment (CAC) and Hot Aisle Containment Systems (HAC). The Hot Aisle Containment System encloses a hot aisle to collect and cool equipment exhaust, making it available for cool air intakes. <https://> Harness intelligent airflow control that slashes fan energy use by up to 40%, while enhancing your cooling capacity by up to 20%.
