Overview

ESB Networks have introduced a revised Specification for electric meter boxes in Ireland. The builder/house owner must supply and install an ESB Networks approved outdoor meter box, which must be continuously accessible to ESB Networks and unobstructed by of the box. Customer cable may also enter through a predrilled hole at the bottom right-hand of the box. A standard recessed unit meter box that is constructed from grp which has an SMC backboard and is compliant with ESB national code of practice and Irish standards. The grp construct makes these units highly durable, corrosion and weather resistant. Should the arc reach certain parameters, the device will disconnect, extinguishing the a.
