Labor cost for installing the household electrical distribution box

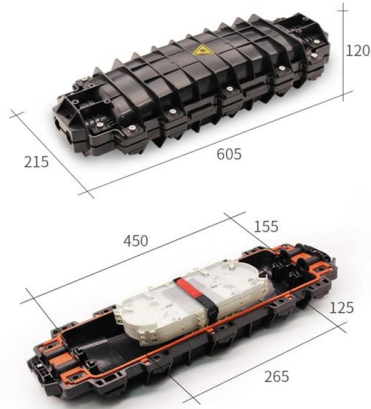

Overview

New panel box pricing typically ranges from about \$150 to \$1,900 for parts and labor, with most residential projects landing between \$450 and \$1,500 depending on amp rating, gauge of wiring, and labor complexity. The cost of a new panel box depends on the box size, meter/branch requirements, enclosure type, and labor for installation. This article breaks down typical price ranges and driving factors to help homeowners and contractors budget effectively. Electrical estimators are continually challenged to deliver reliable cost projections that take into account the complexities of electrical installations—from initial planning, design, and compliance to actual execution.
