Libyan Drop Cable OS2

Overview

A2 fibre surrounded by a micro module and aramid yarn as a strength member covered with a Black UV resistant LSZH outer sheath. High-quality SC singlemode I-V (ZN)H FTTH distribution cable (one side equipped with connectors, open side comes with pulling aid and bend-optimized) for universal indoor and outdoor application, including installation between buildings in ducts and inside buildings up to riser ducts. Fiber Drop Cable with factory-terminated, environmentally sealed, and hardened connectors reduces the cost and the time of drop cable deployment in optical access networks. It is technician-friendly to greatly simplify installation and maintenance by minimising splicing. Available in dielectric and toneable versions, these cables are RDUP (RUS) Listed and deliver exceptional crush resistance, making them ideal for rugged environments and.
