Morgan Distribution Box Specifications

Overview

This document provides specifications for various distribution boxes including dimensions, mounting sizes, and number of ways. Indication Lights: These provide visual availability and status of mains power supply. Smart DB boxes have extra parts like energy monitoring units and communication modules. The supplier shall submit Type Test Report of the Isolator for approval of Employer before commencement of supply. They create optimum installations for any application and are cost-effective, reliable, and space saving solutions!

*To obtain the most current agency approval information, see the Agency Compliance & Certifications Checklist section on the specific part number's web page.
