Morocco Stock Modular Data Center IP68

Overview

IPT PowerTech engineered and delivered a 180 m² prefabricated modular data center in Morocco, composed of five factory-built modules designed for plug-and-play deployment. Built under a Full Turnkey (FTK) model, the project covered design, structural, electrical, HVAC, and fire. In 2020, the Agency for Digital Development published a roadmap listing digital infrastructure as a priority. The Morocco data center market is located in the region of Africa and within EMEA.
