## Overview

---

These kits eliminate bypass airflow by sealing the gap between the floor and the bottom of server or network cabinets, especially when leveling feet or casters are used. By improving airflow control, these seals help maintain efficient cooling and reduce energy costs. Our blanking shade offers a versatile blanking solution for racks with multiple open units. The Cool Shield AirStrip is an expanding foam tape designed to prevent unwanted air loss from gaps in contained aisles, server rack rows and data center infrastructure. We stock a large selection of Gaskets & Seals, including new and most popular products from the world's top manufacturers including: Hammond, Bopla, Multicomp Pro, Deltron Enclosures & Camdenboss [More Pricing](#).

## Network cabinet sealing

---

### MCT
