New Zealand Cross-Border Optical Cable

Overview

A cable that roughly doubles New Zealand's internet connectivity to the rest of the world is now in service. The US\$350 million (\$570m) SX Next cable runs between Auckland, Sydney and Los Angeles and will also provide the first fibre-optic broadband connections to Tokelau and. The country is served by several key undersea cables including the Southern Cross Cable, Hawaiki Cable, and the Southern Cross NEXT. The Pacific Fibre cable is a new 12,750km (7,920 miles) trans-pacific subsea fiber optic cable linking Australia, New Zealand and the US, with cable landing stations in Sydney, Auckland and Los Angeles.
