

**Adam Tas Corridor Energy**

# **Nordic Distribution Box Manufacturing Equipment**

## Overview

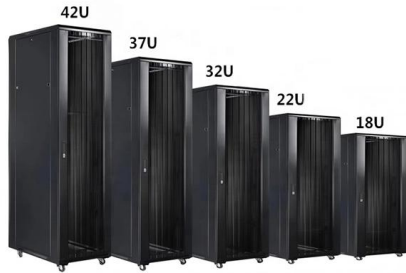

---

Our portfolio ranges from simple filling equipment, blister packaging and pouch packs; to cartoning and end-of-line equipment. In order to give design engineers worldwide timely and reliable access to our full portfolio, we take pride in our choice of distribution partners. The Pro Cut Fold Stream combines high productivity with intelligent automation and enables cost-effective processing of both. Having started as a Dynoplast licensee in 1997, SCHÜTZ Nordic AS was founded in April 1999 with the ambition to corroborate the position as leading supplier of packaging systems also in the North-European markets.

## Nordic Distribution Box Manufacturing Equipment

---

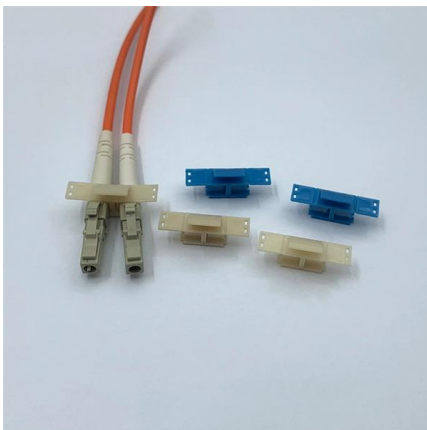

### Distribution enclosure, Distribution box

Used for strong current connection of high voltage distribution box, all-in-one controller, battery box and other equipment. JX59 single-core series adopt plastic housing, while JX59M single-core series
