Qatar Fiber Optic Cable Tray Explosion-Proof Installation Solution

Overview

* series is a range of fiber optic splice boxes designed for protection of optical fiber cable splices in hazardous areas. The splice trays are according to DIN 47662 and Telecom standards, each tray can hold up to 12. Unlike wire ways and conduits, which completely enclose cables, cable trays offer an open structure that allows for easy access and visibility of the cables. We have been supplying the local market with all Fiber-to-Home related products since our inception. We also offer custom made products for client who have specific needs including designing.
