Safety Indication Signs for Distribution Boxes

Overview

Each category helps you understand how to handle, store, and recycle products safely and responsibly. The International Organization sets these symbols for Standardization (ISO), which keeps the data of all these symbols and defines their meaning. Table of contents The most recognised packaging symbol in the world, the radiation warning symbol or the Trefoil, was designed in 1946 at the initiative of the University of California Radiation Laboratory in Berkeley. From "Fragile" to "Keep Dry," "Do Not Drop" to compostable markings, understanding these symbols helps protect goods, ensures regulatory compliance, and supports sustainable practices.
