Single-fiber dust plug for optical module

Overview

Made of durable and soft silicone material, it tightly fits the SFP optical port slot, effectively isolating dust and impurities, and extending the service life of the SFP socket. Protection: Effectively prevents dust and debris from entering SFP modules and fiber optic connectors, ensuring performance. Here you can find fiber optic protection caps for several purposes: We offer dust covers for LC cable connectors and connector jacks as well as dust caps for SC or FC jacks. You can also obtain dust covers for unused adaptor slots of cable management patch panels, and dust protection caps for SFP. Please let me know the angle you need and all your requirements, such as whether you want burned balls, gold plating, and whether you want nickel tube assemblies, etc.
