## Overview

---

The PCBAs (Printed Circuit Board Assemblies) are developed in close collaboration with clients and custom-designed for implants, medical devices, and high-end industrial products. K2MODUL is made with a mission to offer unforgettable and extraordinary experiences through sustainable and environmentally friendly modular houses. One of the most valuable benefits of modular homes is they are engineered to increase energy efficiency. At CMA Electronics, or "Custom Made Alternative" Electronics we work together as a team to provide solutions to a combination of conditions that are difficult to satisfy simultaneously: We specialize in manufacturing electronic modules consisting of 1-50 different components.
