

**Adam Tas Corridor Energy**

# **South African Active Optical Device 200G**

## Overview

---

The 200G QSFP56 active optical cable is designed for use in 200 Gigabit Ethernet links over OM3 multimode fibre, it contains four multi-mode fibres (MMF) optic transceivers per end, each operating at data rates of up to 50Gb/s. What is the global importance of the South Africa 200G Optical Module Market emerging needs that are shaping its growth?

The. HPE reserves the right to make pricing adjustments at any time for reasons including, but not limited to, changing market conditions, product discontinuation, restricted product availability, promotion end of life, and errors in advertisements. These AOC assemblies are QSFP DD MSA compliant, also backwards port compatible with existing QSFP modules and provide flexibility for. More compatible brands will be available for delivery imminently so please reach out to the Pro Optix team for latest updates.
