South African Standard for Grade 1 Construction Site Electrical Distribution Boxes

Overview

This South African standard was prepared by National Committee SABS/TC 067/SC 06, Electricity distribution systems and components – Installations, in accordance with procedures of the South African Bureau of Standards, in compliance with annex 3 of the WTO/TBT. SANS10400-Building Regulations South Africa – SANS10400 are the Building regulations in South Africa, and both international and national standards, are fundamental to successful building and construction projects, both big and small. The objective of the SABS Standards Division is to develop, promote and maintain South African National Standards. This document consists of explanatory notes on the implications and application of the more important regulations concerning electrical installations.
