# **The electrical distribution box is right outside the door in the hallway**

## Overview

---

**Bottom Line Up Front:** Your home's distribution box (electrical panel) is typically located in the basement, garage, utility room, or mounted outside near your electrical meter. To find it quickly, look for a rectangular gray metal box about the size of a medicine cabinet, often positioned close to. Choose the right box based on environment (indoor/outdoor), load capacity, and durability. Ensure safe placement: install in dry, accessible areas with good ventilation and at appropriate height (typically ~1. Electrical panel boxes, aka breaker boxes, can be on a wall in an out-of-the-way area of your home. A distribution board, referred to as a "breaker box" here and also commonly referred to as a "fuse box", "breaker panel", "DB box", and many other names, is a metal box attached to a wall, usually in some maintenance area, containing multiple circuit breakers that distribute electricity to various. However, when it comes to choosing the best location for a power distribution box, there are several factors to consider.
