## Ukrainian fiber optic cable lines

---

### How Ukraine is Adapting to the Threat of Fiber-Optic

Fiber-optic drones are a major challenge for Ukrainian forces. Discover how the military is countering this threat, from nets to mobile shooter

### Why Ukraine's Drones Have Fiber Optic Cables

In February 2025, Ukraine's Unmanned Systems Forces unveiled the "Silkworm," a domestically-made modular fiber optic spool. It signals a serious

### Fiber-optic drones are leaving miles of plastic trash along Ukraine's

In particular, researchers are focused on a type of drone that is tethered to the ground with a fiber-optic cable. The thin cable looks like a fishing line and unspools as the drone flies

### Big Leap In Drone Warfare! Russia Accelerates

Russia is reportedly stepping up production of its Prince Vandal Novgorodsky (KVN) fiber-optic

cable-controlled FPV (First Person View)

## Fiber-optic drones weave spiderweb barriers in Ukraine

On the 19th, a video released by the Ukrainian military showed white lines resembling spiderwebs covering an entire village in eastern Ukraine. This scene

## Hezbollah adopts a new weapon: Fiber-optic drones, used widely in

TEL AVIV, Israel -- Hezbollah has launched a new weapon against northern Israel in the latest round of fighting: small drones controlled with fiber-optic cables the width of dental floss that

## Ukraine Fiber Optic Spool Prices Jump More Than Eightfold As AI

A Ukrainian drone operator says his unit is now paying more than eight times what it used to for the fiber optic spools that feed their jam-proof FPV drones.

## Are Ukrainian and Russian electronic jamming-resistant

In the evolving landscape of modern warfare, both Ukraine and Russia are deploying fibre-optic-controlled drones that are impervious to

## Fiber Optic Drone Webs Are Reshaping Ukraine's

Fiber optic drones matter so much in combat Fiber optic FPV drones have only been used on the frontlines for roughly two years, but they have

## Ukraine: Russia revolutionizes warfare with fiber-optic

Ukraine leads the way in unmanned vehicle innovation, but the invaders are advancing with weapons that have been key to their recapture of

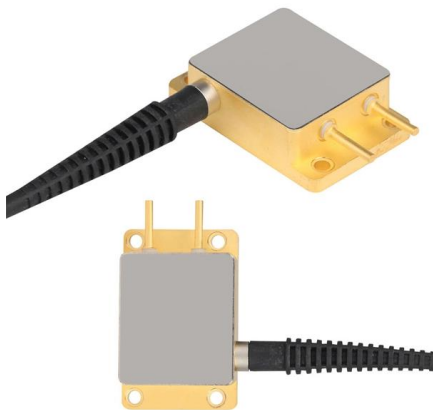

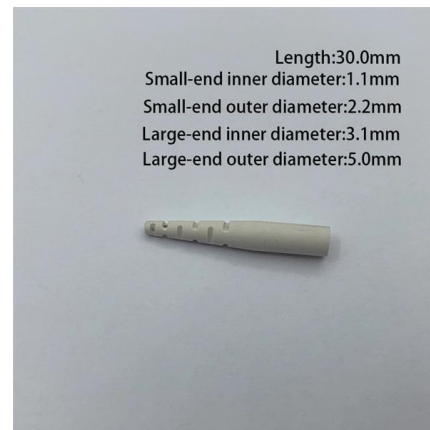

## In northern Ukraine, it was boy vs. Russian drone. The boy won.

A soldier taught a 12-year-old how to disable the fiber-optic drones that Russia has been using to hunt Ukrainian civilians in a campaign the U.N. has labeled a war crime.

## Unjammable Drones Leave Wires, Force Ukrainians to

Russia and Ukraine have increasingly turned to small drones controlled by fiber-optic cables. These drones are leaving their fiber-optic cables

## Ukraine Discloses New Method To Defeat Russian Fiber

A storied Ukrainian military drone unit said it has developed a way to counter an increasingly deadly weapon -- Russian first-person view (FPV)

## Watch: Ukraine front-line city blanketed in web of drone

A Ukrainian front-line city has been smothered by a giant web of fibre optic cable from hundreds of drone battles in the skies.

## Fiber-optic drones in Warfare What they Are Why they

Fiber-optic drones are transforming electronic warfare by offering unjammable control and high-definition video.

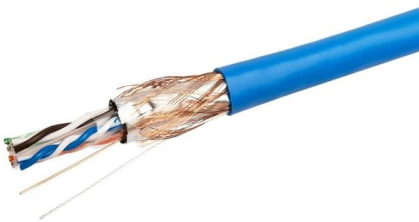

## Hezbollah adopts fiber-optic drones, used widely in war in Ukraine

Hezbollah has introduced fiber-optic drones in its conflict with Israel. These drones, similar to those used in Ukraine, are small, hard to detect, and lethal.

## Russia to unleash fibre-optic drone to get behind

Russia is set to introduce its latest fibre-optic drones when its summer offensive in Ukraine begins, military analysts said. A 15km cable like a

## Birds Building Nests From Fiber Optic Cables

Near Ukraine's front lines, birds have started using abandoned fiber-optic cables from FPV drones as nesting material because the thin, flexible strands resemble

### **The unjammable drone: How fiber optics are rewiring**

Russia reports that it has discovered a new type of Ukrainian naval "mothership" that serves as a carrier for fiber-optic cable-tethered quadcopter

### **How Ukraine is Adapting to the Threat of Fiber-Optic**

Ukrainian servicemen share insights on adapting to fiber-optic drones, their capabilities, and countermeasures employed on the battlefield.

### **The drone web: how consumer drones have covered Ukraine's battle lines**

Drone warfare is common in Ukraine, but a new evolution in the conflict is leaving a strange web of fiber optic cables strewn

## **Fibre-optic drones reshaped the war in Ukraine. Hezbollah are now**

The fibre-optic drones are in such wide use that footage shows front-line Ukrainian towns coated with shiny, fishing line-like strings, resembling massive spiderwebs shimmering in the sunlight.

## **Fiber-optic drones have emerged as critical kit for both**

Within months, more than 80 Ukrainian-designed fiber-optic systems had been approved for use, while the number of Ukrainian companies involved in

## **Russian fiber-optic FPV drones reach Kramatorsk, Ukraine's Donbas**

Russian fiber-optic FPV drones have reached Kramatorsk, posing a new threat to one of Ukraine's key strongholds in Donetsk Oblast.

## **Ukraine Deploys Rotating Barbed-Wire Barriers to**

Ukraine's military has reportedly deployed rotating barbed-wire barriers designed to counter Russian fiber-optic-guided drones operating beyond the front

## A New and More Deadly Drone on Russia's Battlefields

The cables can also stretch up to 10km (6.2 miles), with newer models reaching even further. But this also poses a risk to the drone unit, as the cables

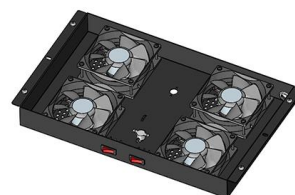

## How China is helping Russia produce fiber optic drones

Ukrainian fiber optic drone (Photo: Vitalii Nosach/EPA) China has significantly helped Russia by sharply increasing its exports over the summer of

## Electronic Warfare How Fiber-Optic FPV Drones Are

Fiber-optic drones, immune to jamming thanks to a cable-based connection, were first widely used by Russia in the Kursk region to bypass

## The Only Fiber Optic Plant in Russia Shut Down for Nearly a Year

Russia's only fiber optic plant has still not resumed operations after Ukrainian drone strikes in April-May 2025. According to The Moscow Times, the facility, Optic Fiber Systems, is located in

## Ukrainian Village Blanketed in Fiber Optic Cable

Yesterday, Ukraine's 3rd Corps announced that a counterattack in the area had broken through Russian lines and ejected them from Lyman, destroying a Russian regiment in the process. The successful operation stabilizes Ukrainian lines and simplifies some logistical challenges.
