# **What does the yellow color of the pigtail sleeve represent**

## Overview

---

Single-mode pigtails have yellow outer sheaths, with wavelengths of 1310nm or 1550nm, and transmission distances of up to 10km or 40km. Each individual pigtail is color coded according to industry standard TIA-EIA-598-A. What does the yellow color on barrel connectors mean?

Most barrel connectors are black tipped but every once in a while I run into a yellow tipped connector. Is there anything significant about this?

Why aren't there red, blue or green tipped barrel connectors?

EDIT: Wow guys, after all this I.
