# **What kind of connector is best for optical fiber cables**

## Overview

---

This article explores the wide range of fiber optic connector types, from legacy SC and ST to modern MPO/MTP and VSFF designs. A fiber optic connector is a mechanical device used to align and join optical fibers, enabling light to pass through with minimal loss. However, with several connector types available, each with unique designs and uses, it's important to understand which one fits your application best.
