

**Adam Tas Corridor Energy**

# **What qualifications are needed to sell fiber optic cable lines**

## Overview

---

To thrive as a Fiber Optic Sales professional, you need a solid understanding of fiber optic technology, strong sales acumen, and often a background in telecommunications or a related field. The FBA OpTIC Path™ course consists of 144 hours of instructor-led and hands-on practices to equip future fiber technicians with the skills and knowledge required to install, splice, test and maintain. A new FOA microcredential for anyone working in fiber optics, not just technicians. Certificates of Completion: Awarded to learners who complete all course requirements and activities, regardless of assessment results. This is often done with the best intentions—employers want their teams certified, recognized, and ready for project work.
