What router is needed for a 500m fiber optic connection

Overview

The best router for fiber internet is one that matches your plan speed, home size, and how you use your connection. Our top overall pick is the Netgear Nighthawk RS700S, a Wi-Fi 7 router built for multi-gig fiber plans that handles up to 200 devices across 3,500 square feet. Many major ISPs, such as Verizon and Xfinity, offer fiber connections directly to your door, known as FttP or Fiber. That's why we're here to present to you the top 10 routers in the market that are specifically designed to deliver a blazing-fast 500mbps internet speed. However, the market is flooded with countless options, making the selection quite overwhelming.
