What size router should I pair with a 50M fiber optic connection

Overview

To get the most out of your fiber connection, consider a dual-band or tri-band router. 4 GHz, which provides wider coverage but slower speeds, and 5 GHz, which offers faster speeds but shorter range. Q: Can I plug a fiber optic cable directly into a router?

A: Only if your router has an SFP port designed for fiber. Whether you need a dual-band router for a 50 Mbps internet connection depends on your specific requirements and usage scenario.
