# **What to buy for a fiber optic router**

## Overview

---

You'll typically need an Optical Network Terminal (ONT) provided by your installer, an Ethernet cable to connect the ONT to your router, and your own high-performance router. A fiber-optic connection is the best choice for fast home internet as it has a number of advantages compared to traditional copper cables, such as faster speeds and less interference. The best router for fiber internet is one that matches your plan speed, home size, and how you use your connection. If you want to purchase it, a gigabit router is the best choice for maximizing the potential of fiber optic Internet. This guide breaks down everything you need to know about fiber routers, ONT fiber equipment, and other essential components to help you make informed decisions when you compare internet plans.
