What to do if there s an AI chip inside the server

Super Micro falls as co-founder, employee charged in Nvidia chip

DOJ charges allege SMCI-linked individuals helped smuggle \$2.5B in Nvidia AI server tech to China, violating export laws; get the key details now.

AI's memory chip shortage is quietly taxing the entire

AI's insatiable appetite for memory chips is crowding out all other buyers -- and the consequences will ripple through every industry and household.

The GPU Supply Chain Crisis: What Every Enterprise CIO Must Know

Cited in: Fusion Worldwide, Inside the AI Bottleneck: CoWoS, HBM, and 2-3nm Capacity Constraints Through 2027, December 2025.

AI Server: A Guide to Artificial Intelligence Servers and

Unlike traditional servers, which are optimized for standard business applications, AI servers are built to process vast datasets, train AI models, and

What is an AI server? Why artificial intelligence needs

AI servers are specialized systems using powerful GPUs for the intensive, parallel processing of AI models. AI servers are distinct from general-purpose servers,

Hardware Archives , TechRepublic

How Much Data Center Revenue Do AI Companies Bring In? , The Motley Fool

IBM does not compete in AI GPUs or cloud-scale chips. Its AI data center revenue comes from, among other things, its hardware:

Microsoft's Game-Changing AI Chip: Revolutionizing the Server Market

Discover how Microsoft's privately produced AI chip is shaking up the server market and empowering its internal teams and customers with increased capabilities and performance.

ON Semiconductor surges 51% in April as EV and AI chip

The logic is straightforward: AI training clusters consume enormous amounts of electricity, and efficient power conversion inside data centers reduces both energy costs and cooling demands. SiC chips,

Transforming Server Architecture for AI Workloads

Learn how AI workloads are reshaping server architecture with accelerators, CXL memory pooling, high-speed interconnects, and advanced cooling.

Exclusive: US embeds trackers in AI chip shipments to catch

U.S. authorities have secretly placed location tracking devices in targeted shipments of advanced chips they see as being at high risk of illegal diversion to China, according to two people

AI has an environmental problem. Here's what the world

The sprawling data centres that house AI servers churn out toxic electronic waste and are voracious consumers of electricity, which in most places

What is an AI chip? Everything you need to know

Other devices will do all their processing on the devices themselves, through an AI chip. But what is an AI chip? And how does it differ from the various
